

“Oath of Office” **for the Township level Public-Office of:** **“Qualified Elector”**

“Traditional American Organic Common-Law 'Township' Jurisdiction, & Social Safety-Net.”
Version-4; ... Last Up-Dated: 14th-September-2019.

I recognize that our American system of Constitutional-Law, preserves our Rights of “Local Self-Government”, as referenced through the First, Second, Sixth, Seventh, Ninth, & Tenth Amendments, to the “U.S. Constitution” document; & that, this especially includes the Rights of Our People to Assemble as “Responsibly Self-Governing Communities”, in our own “Township” Communities, of approximately “Ten Households”; which is the specific numerical-requirement for these American Communities, as under our smaller traditional Organic/Constitutional “Common-Law Jurisdictions”.

I recognize that our American Constitutional System of Organizing Our Own “Responsibly Self-Governing Communities”, was, from the very beginning of our Nation, Founded & Established by the Actions of “Courageous Men”; all of whom were increasingly suffering under the tyranny of a Powerful Criminal Mob-Boss, who was scheming to reduce them to slavery; & who there-by left our American Founders with no reasonable choice other than to resort to “Armed Resistance” to their looming collective En-Slavement.

I recognize that this same basic Spirit of “Enslaving Honorable People” is again manifesting its appearance with-in our American Nation; & that, here-under, I & my fellow Township Members must be prepared to defend our smaller communities from such criminal conspirators.

I here-under recognize, that, our Nation's Constitution's Rules of “Due Process of Law” require “Trial by Jury” with “Unanimous Verdicts”; & that this implies that our Community Decision-Making should be based on the formation of at least a “Consensus”; so that the Collective “Conscience of the Community” can be Discovered & Affirmed as our “Norm of Behavior”, all under which our Communities should “Responsibly Self-Govern”.

I here-under recognize that my Duties here include my making reasonably vigilant & good-faith efforts to Attend any & all “Town Meetings” which our Town Constable might call; & that I have a Social “Duty”, (to the best of my reasonable capabilities), to Participate in these smaller Community Meetings, all in “Good Faith”, & to Respect all sincerely held Opinions of Others. **I recognize further**, that, this Common-Law Consensus-Building Process Requires that all Town Meetings Encourage All People there-in to Voice Their Own Proposed “Solutions” to all problems manifesting in each of their Townships.

I further recognize that there are many “Problematic People” in this world, who are Not “Socially Responsible”, & who will likely Refuse to Honorably Participate in Good-Faith Discussions of how our Smaller Communities should “Responsibly Self-Govern”. **I further here recognize**, that, unless firm & clear “Judgements” are Made to “Exclude” any such “Socially Irresponsible People” from participating here-in, then our own smaller community's efforts at “Responsibly Self-Governing” will be Doomed to Failure. **I here-under Recognize our Community Needs for Mechanisms for Judging Accurately if any people** in our Community Meetings might be so “Socially Irresponsible” that they will need to be “Excluded” from our Township Community Meetings.

I recognize that the Leader of our Township is to be Elected through a “Consensus Based” process; & that, basically, All Activities of our Township Community will require a similar “Consensus”. **I also recognize**, that, the “Cause of Justice” must be Defended by our Community Members; but also, that no serious Dangers should be risked unless all members of our Township community Agree to take such risk.

These potential calculated-risk Dangers include, that, I may be called on to Assist in “Making Arrests” of persons for whom “Probable Cause” Exists to Form the Belief that they have Committed a Crime, all as recognizable under traditional “Due Process of Law”.

Broader Duties here-under, include, that, I have a Duty to promptly & vigilantly Obey all Requests & Directives that our Town Constable may ask me to carry out; with my only “Exception” for Refusing to Obey such a Request here being if I can make a Believable Argument to My Fellow Electors in our Township that I Sincerely Believed that the Order I was Refusing was in Violation of “Higher Law” or “Natural Law” or the “Laws of God”; & that if I can Not make any such “Good Excuse” as this for Refusing any such request, that, this could be grounds for my Losing my “Qualified-Elector Status” in our Township.

Other Duties I am here-by assuming, include my promise to honorably respond when-ever I might be Called On to Participate in “Administering Justice” as a “Juror”; & that this or other similar callings made to me May Require that I &/or others “Investigate” by “Inquiring” from a broad spectrum of possible People, including perhaps even Corporate-Executives & Government-Officials; as to whether or not activities of them-selves or their associates are causing any form of Social-Injustice, especially as with-in the Township Community with-in which I hold my precious membership.

Similarly here-under; **I also recognize, that, I may be called on to Participate in Lawfully Organized & Prudently & Strategically Engineered “Public Assemblies”**; & that, this may include Assemblies on or near Court-Buildings, City & County Office-Buildings, Newspaper-Offices, Television & Radio Stations, &/or Police or Sheriff’s Headquarters, & Jails & Prisons.

I comprehend, that, my own “Qualified Elector” Status is dependent & contingent on my consistently maintaining the Testimony of at least “Two Witnesses” to My Qualified-Elector Status, each of which also have to similarly maintain “Two Witnesses” as to their own Qualified-Elector Status; & that this can & frequently should result in Smaller “Three-Member Communities” Certifying Each Other’s Qualified-Elector Status. I comprehend further that all of this is constantly dependent on every such Qualified Elector maintaining their own Two-Witness Certified “Good Reputation” for “Honorable Behavior”.

I comprehend further, that, this “Good Reputation” of Each Elector/Member of our Township Community, is the Basis up-on which I & my fellow Township’s Electors are Duty-Bound to Constantly Maintain our own “Commercial-Credit Worthiness”.

I agree with this oath document, which explain the history, duties, and benefits of my participating in this effort at smaller community self-governing; & I have no significant dis-agreements with the Duties described there-in; & I solemnly affirm that I will exercise Vigilance & Good-Faith in my Efforts to Full-Fill these Duties.

I do solemnly under-take to full-fill these Duties as a **Socially Compacted Member** & a “Qualified Elector” in the below described “Township” Jurisdiction.

Elector's autograph: _____ **Thumbprint:** _____

Elector's Printed Appellation: _____

Street-Address: _____
